### What does the world need to know about libraries today?

If you could stand in front of 50,000 people and tell them *one thing* about libraries or librarians what would it be? You can use the space below and the back of this page, do an audio interview or email to [kyle@kylecassidy.com](mailto:kyle@kylecassidy.com). Some suggestions to get you started:

- 1) What are the greatest challenges facing libraries today?
- 2) What are the most important services that libraries provide?
- 3) What inspired you to do what you do?
- 4) What do libraries do that people might not know about?
- 5) What would happen in your community if all the libraries shut down tomorrow?
- 6) Why are libraries relevant when the Internet exists?
